INT. PRINTED MAGAZINE - REST PAGE - TIMELESS

The next pillar emerges.

REST

Below the arching header:

Practices for Allowing Rest & Recovery

The palette deepens.

The glow softens.

Stars scatter lightly across a darkened sky.

At center,
a figure lies in quiet stillness,
hands folded,
breathing steady.

Above,
a crescent moon rests inside a drifting thought-cloud.

Four practice panels surround the scene.

PAUSE

Stop adding input.

No fixing.

No optimizing.

DIM

Lower light, sound, and stimulation.

DREAM

Allow dreaming and deep imagery.

STAY

Remain at rest when the urge to act
appears.

Near the bottom,
a highlighted band reads:

EFFECT:

Allows the nervous system to
downshift,
restores baseline regulation,
and reduces cognitive load.

A final declaration anchors the page:

NOTHING IS REQUIRED RIGHT NOW

The page feels like exhale.
Release without collapse.
Stillness without demand.
